

Riverview Values

no.2 "Encourage"

We value having the ability to positively influence others towards growth. As encouragers we are **grateful**, having learned to be content in all seasons. We are people who will count our blessings and understand God's lavish goodness to us. We will carry joy as an outer garment rather than as a hidden treasure. We are a people who are **generous** with our time and our resources, we love to see others succeed and will delight in resourcing that success knowing that if another person wins, then we ourselves win. This generosity is richly demonstrated in the fact that we are a **hospitable** people who are invitational. We love to bring people in but will also go a great distance to welcome those whom others have brought or those who have found their own way into our community. Our homes are open and are places of warmth and sanctuary to others.
